INKS

Customise your stationery free of charge by choosing from our palette of ink colours.

Metallic inks will have a great depth of color on paper, but will appear matte in finish.

Consider printing blind (no ink), a method which shows off the letterpress impression beautifully.

We can also tailor mix ink colours to closely match a Pantone reference or a supplied swatch, at an extra cost of €30 per colour.

Please Note:

Colour swatches are approximate and may vary from one monitor to another.

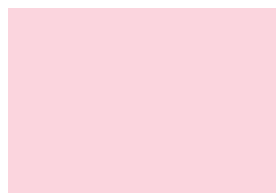

All of our inks are hand mixed and therefore may vary slightly from one print to another.
